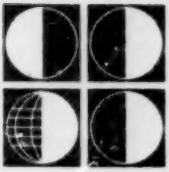
SOCIAL BIOLOGY

Volume 32, 1985



ABO Blood Groups: and perinatal mortality, 129–131
Abortion: religious groups supporting or opposing, 19; predictors of attitude toward, 23; opinion on of Nigerian undergraduates in the U.S., 132–135
Adebayo, Akin, 132–135
ADH. *See* Alcohol dehydrogenase.
Adolescents: perceptions of family environments of, 71–81
Adoption: and genetic disorders, 141; and alcohol use among adoptees, 186–190
Age: and first marriage in Taiwan, 115–128
Alcohol: and genetics, 143–145; theories of effect of use on offspring, 146–161; individual differences in sensitivity to and tolerance of, 162–184; and the uses and limitations of the high risk paradigm for abuse of, 185–194; ethnic differences in use and abuse of and sensitivity to, 195–209; genetics of consumption of in animals, 210–221; genetic influences on tolerance of in animals, 222–228; animal model of dependence on, 229–240; neurophysiological mechanisms of sensitivity to in animals, 241–254; and neurochemical mechanisms in genetics of alcohol phenotypes in animals, 255–271; and multivariable causal modeling in research on use of, 272–296; basic research on heredity and use of, 297–321
Alcohol dehydrogenase: among ethnic groups and alcohol reactions, 200–201, 206–207, 311
Alcoholism: two types of, 188; genetic predisposition to, 188–193; rates of in Western countries, 190; basic research on heredity and types of, 297–322
Aldehyde dehydrogenase: among ethnic groups and alcohol reactions, 201–203, 206–207, 310
ALDH. *See* Aldehyde dehydrogenase.
Altitude: and fertility in Nepal, 65–70
American Indians: alcohol use and abuse of and sensitivity to, 195–209
American Institute of Biological Sciences, 142
Amerinds. *See* American Indians.
Amish. *See* Nebraska Amish.
Amniocentesis: moral and religious influences in, 13–30
Anglos: socioeconomic status and infant mortality among in Corpus Christi, 61–64
Animal models: of alcohol dependence, 229–240
Antisocial personality: and alcoholism, 301–306, 317
Assortative mating: for alcoholism, 305
Australia: adolescents' perceptions of family environments in, 71–81; alcohol consumption of aborigines in, 199

Benton, M. A., 65–70
Birthdays: and mortality, 102–114
Bishop, A. J., 65–70
Blacks: breastfeeding among in the U.S., 55; alcohol use, abuse, and sensitivity among, 195–209
Bohman, Michael, 185–194
Brain wave studies: and risk of alcoholism, 311
Breastfeeding: in the U.S., 53–60; among Blacks, 55; at high and low altitude in Nepal, 67–68; in Sri Lanka, 90–101
Britain: physique and family variables in university girls in, 45–52

Canada: alcohol consumption in, 197
Cardiovascular response: after alcohol consumption, 203–205
Caucasians: and alcohol interaction, 263–267
Child mortality: and drinking mothers, 155
Chinese: alcohol consumption among in Hawaii, 197, 205
Cloninger, C. Robert, 185–194
Collins, Allan C., 255–271
Colorado Alcohol Research on Twins and Adoptees, 163–165
Corpus Christi: socioeconomic status and infant mortality in, 61–64
Cousins: frequencies of types of in Nebraska Amish marriages, 82–89
Crowe, Lawson, 146–161

Dann, T. C., 45–52
Disease: among children of drinking and nondrinking parents, 155
Dopamine: and response to alcohol in laboratory mice, 261–263
Dysphoria: after alcohol consumption, 202–203

Education. *See* Learning environments.
Ekwo, Edem F., 13–30
English: adolescents' perception of family environments among in Australia, 73–81

Erwin, V. gene, 222–28
Ethanol. *See* Alcohol.
Ethnic groups: perception of adolescents of family environments of in Australia, 71–81; and differences in alcohol use, abuse, and sensitivity, 195–209

FACIAL FLUSHING: after alcohol consumption, 202–203, 310
Feighner criteria: diagnosis of alcoholism by, 298, 300
Fertility: and effects of altitude in Nepal, 65–70
Fetal alcohol syndrome: first observations of, 147
France: alcohol consumption in, 197, 206
Fuller, John L., 210–221

GALTON EUGENICS LABORATORY: and studies on heredity in alcohol abuse, 152–161
Galton, Francis: and views on alcohol and heritable disease, 151–153, 156
Genetic disorders: in adoptees, 141. *See also* Maternal phenylketonuria.
Geneticists: sought for International Soundex Reunion Registry, 141
Genetics: and the human encounter with alcohol, 143–145; and theories about effects of alcohol on offspring, 146–161; and risk for alcohol abuse, 162–184; and ethnic differences in alcohol use, abuse, and sensitivity, 195–209; and alcohol consumption in animals, 210–221; and acquisition of tolerance to alcohol in laboratory mice, 222–228; and an animal model of alcohol dependence, 229–240; and ethanol sensitivity in laboratory mice, 241–254; and alcohol phenotypes in laboratory mice, 255–271; and implications for clinical applications of research on heredity and alcohol, 297–321
Gin Epidemic, 147
Greeks: adolescents' perceptions of family environments among in Australia, 73–81
Grigsby, Jill S., 102–114
Gualtieri, C. T., 129–131

HANSON, JAMES W., 13–30
Hawaii: alcohol consumption among Caucasians, Chinese, and Japanese in, 197
Heer, David M., 115–128
Heredity: and theories about the effects of alcohol use on offspring, 146–161: basic research on alcohol and, 297–321
Hicks, R. E., 129–131
Hindu Reddis: alcohol consumption among, 199
Hispanic-Americans: rates of breastfeeding among, 57; infant mortality and socioeconomic status among, 61–64
Hurd, James P., 82–89

IDIOCY: attributed to alcoholism of parents, 146–151
Inbreeding: of laboratory mice selected for alcohol consumption, 211–215, 220; of laboratory mice for alcohol dependence, 231–240
Indians. *See* American Indians.
Infant mortality: and socioeconomic status among Hispanic-Americans, 61–64
International Soundex Reunion Registry, 141
IQ: of children of drinking and nondrinking parents, 155; and risk of alcoholism, 311, 312, 315
Isonomy: in companies of militia in the Colony of New York in 1760, 136–140
Italians: adolescents' perceptions of family environments among in Australia, 73–81

JAPAN: alcohol consumption in, 197, 206
Japanese: alcohol consumption among in Hawaii, 197, 205

KISSING COUSINS. *See* Cousins.
Ko, Chyong-fang, 115–128

LASKER, G. W., 136–141
Laurenson, I. F., 65–70
Learning environments: adolescents' perceptions of among ethnic groups in Australia, 71–81
Levin, Jeffrey S., 61–64
Life sciences: new national center for, 142
Life tables: and duration of breastfeeding in Sri Lanka, 90–101
Liver disease: and alcohol consumption, 302–303
Long-sleep mice: and alcohol consumption, 217–220, 241–254, 255–271

MCCARDLE, J. JACK, 272–296
McClearn, Gerald E., 143–145
Marjoribanks, Kevin, 71–81
Markides, Kyriakos S., 61–64
Marriage: social and biological determinants of age at in Taiwan, 115–128
Mascie-Taylor, C. G. N., 65–70
Maternal phenylketonuria, 31–44
Mayo, J. P. 129–131
Militial: in New York in 1760, 136–141
Mortality: related to stress and special occasions, 102–114; and alcohol-related motor vehicle accidents, 316. *See also* Child mortality, Infant mortality, Neonatal mortality, Perinatal mortality.
Motor vehicle accidents: related to alcohol consumption, 316

NASSIF, FATIMA, 132–135
Nebraska Amish: frequencies of cousin types among, 82–89
Neonatal mortality: timing of endogenous and exogenous causes of established, 1–12
Nepal: fertility and altitude in, 65–70
Nesselroade, John R., 272–296
New York: relationships among companies of militia in Colony of in 1760, 136–141
Nigeria: opinions on abortion of students from, 132–135

ORIENTALS: and alcohol use, abuse, and sensitivity, 195–209, 314; low rate of alcoholism among, 310

PALMER, MICHAEL R., 241–254
Parity: effects of on perinatal mortality, 129–131
Perinatal mortality: and ABO blood groups, 129–131
Phenylketonuria. *See* Maternal phenylketonuria.
Physique: and family variables in university girls in Britain, 45–52; of children of drinking and nondrinking parents, 155, 157
Plomin, Robert, 162–184
Polynesians: alcohol use, abuse, and sensitivity among, 195–209
Poston, Dudley L., 1–12
Pueschel, Siegfried M., 31–44
Purkinje neurons: and alcohol sensitivity of long-sleep and short-sleep laboratory mice, 241–254

RACE: and differences in alcohol use, abuse, and sensitivity, 195–209
Reed, T. Edward, 195–209
Roberts, D. F., 45–52
Rogers, Richard G., 1–12

SALSOLINAL: and response to alcohol in laboratory mice, 256–271
Seals, Brenda, 13–30
Short-sleep mice: and alcohol consumption, 217–220, 241–254, 255–271
Siblings: and adolescents' perception of family environments, 71–81
Sigvardsson, Soren, 185–194
Smith, David P., 53–60, 90–101
Smolen, Toni N., 255–271
Socioeconomic status: and infant mortality among Hispanic-Americans, 61–64

SOCIOPATHS: and alcoholism, 316–317
Stockholm Adoption Study, 186–190
Stress: and mortality, 102–114
Social Biology: order form for back issues of, 324
Society for the Study of Social Biology, 322–323
Sri Lanka: duration of breastfeeding in, 90–101
Stabenau, James R., 297–321
Steegman, A. Theodore, Jr., 136–141
Surnames: relationships among in companies of militia in the Colony of New York in 1760, 136–141

TAIWAN: age and first marriage in, 115–128
Temperance movement: theories of about alcohol and heredity, 146–161
Tetrahydroisoquinoline alkaloids; and response to alcohol in laboratory mice, 256–271
Texas: socioeconomic status and infant mortality in a city in, 61–64
Thailand: alcohol consumption in, 206
Twin studies: and alcohol abuse, 163–165, 185

UNITED KINGDOM: alcohol consumption in, 197, 206
United States: breastfeeding in, 53–60; alcohol consumption in, 197, 206

WEST GERMANY: alcohol consumption in, 197, 206
Williamson, Roger A., 13–30
Wilson, James R., 162–184, 229–240
Wu, Hsin-ying, 115–128
